Versatile Front-End Developer with 6+ years of experience designing, developing, and managing sites and internal frameworks.

EXPERIENCE

ETS AI Labs, Remote — *Lead Front-End Engineer*

September 2022 - Present

- Develop and create components for mobile/web apps using React/React Native/Typescript
 - Use redux-toolkit/jotai as state management tools
 - Leverage Expo Go to create app and test app capabilities in emulators
 - Using Storybook for UI testing purposes and demos
- Work alongside UI/UX designers to make sure development matched mockups
 - Advise on feasibility of mockups and future components

Avanade, New York, NY/Remote — *Front-End Engineer, Senior Consultant*

August 2019 - September 2022

- Develop and create components on multiple projects using either React.js/Typescript
 - Using Storybook for UI testing purposes and demos
 - Leverage React-Testing Library/Jest for component/api testing
 - Using NPM commands to deploy/test React modules
 - Styling was handled by SASS files that were compiled into a deployable CSS file
- Act as Lead Developer on project
 - Schedule meetings and assign work to team of offshore developers
 - Hold consistent meetings with clients to talk design, development, and knowledge transfer of site/codebase
- Work alongside UI/UX designers to make sure development matched mockups
 - Main task was to advise on feasibility of mockups and future components

DirecTV Latin America, Remote — *Senior AEM Developer*

January 2019 - July 2019 (Contract)

- Develop for DirecTV Latin America OTT service, DirecTV GO
 - Develop AEM components using React and AEM software
 - Converting UI/UX mockups into pages within AEM
 - Main pages worked on were Marketing Pages, Landing Pages, User Subscription Flow as well as Payment Processing Flow.
 - Leveraged Node.js NPM and Webpack for build processes.
- Share responsibilities as part of Development and UI/UX teams
 - Exchange ideas and opinions with UX/UI team on the feasibility of mockups and future components
 - Allows for a quicker flow of work as the UX/UI team understands the restrictions of the Dev team as they work on future mocks

Comcast, Philadelphia, PA — *Front-End Engineer*

August 2018 - January 2019 (Contract)

- Part of the “Skywalker” Team in the DCOE (Digital Center of Excellence)
 - Maintain parts of xfinity.com using HTML, CSS, and JS which is housed in Sitecore CMS
 - Provide Content Editors with new components built using Sitecore MVC
- Link up with UI/UX designers to go over website design and best practices
- Maintained Pattern Lab to reflect up-to-date Sitecore Components
